**Description:** The Romanov Conspiracies is a work of compelling detection that begins with the fog of war in 1918 and goes on to criss cross the world and more than seventy years of intrigue. Michael Occleshaw includes hitherto secret papers from the German state archives analyses the diaries of such extraordinary characters as Richard Meinertzhagen and examines a wealth of other papers and witnesses. This is a story about the search for truth amid a dark cloud of fantasy, lies and official deception. And the truth is a trail of tragedy and betrayal that leads to a lonely grave by a cypress tree in an English country churchyard.
