### Catherine of Siena

**Publisher:** Geoffrey Chapman

**Edition:**

**Book Size:** 215mm x 140mm

**Pages:** 163

**Volumes:** 1

**Condition:** As New

**Jacket Condition:**

**Binding:** Soft cover

**Description:** From her earliest years, Catherine of Siena (1347-80) was gripped by the mystery of God incarnate. This was the beginning of a life long love story. A life long conversation in which Christ spoke to Catherine and she communicated the truth of his being to the world of her time. Creation itself, she says is an act of love, and Christ is the bridge by which human beings come to realize their full humanity, their inmost nature, which is to love. Mystic, champion of the poor and church reformer. Catherine was declared a doctor of the church in 1970. She was unable to write until she was thirty, but she corresponded with Popes, Cardinals, Scholars and civic authorities. She was a true daughter of the fourteenth century, famous in her own lifetime, and yet her thinking and her work seem entirely relevant in the political and ecclesial context of our own time. When Pope Paul VI was asked whether she should be considered a politician his answer was yes, but in a thoroughly spiritual way, this he said is why the teaching of this singular woman politician is still meaningful and valuable.
